

**2021 Summary  
Looking ahead to  
2022**

January 2022

This presentation of Massivit 3D Printing Technologies Ltd. (hereinafter – the “**Company**” or “**Massivit**”) was prepared in a condensed format; it does not include all the information about the Company and its activity and should be reviewed in conjunction with the Company’s reports to the public. Nothing stated in this presentation constitutes a representation or a warranty. For complete and comprehensive information about the Company’s condition, businesses and financial results, and for a full picture of the Company’s activity and the risks it faces, please peruse its current and periodic reports. Furthermore, this presentation may include statistical and other data and publications issued by third parties, and which constitute, to the best of the Company’s knowledge, information which is in the public domain. Such data and publications were not reviewed independently by the Company.

Among other things, the Company included in this presentation forecasts, plans, preliminary financial results data for 2021 and Q4 2021, as well as assessments and other information pertaining to future events or matters that constitute forward-looking information, as defined in the Securities Law, 1968. Such information and data are based on the Company’s subjective assessments, including in connection with plans, objectives, business strategies, economic, sectoral and other developments, as well as analysis of general information available to the Company as of the publication date of this presentation. Such data and information constituting projected Company financial results as mentioned above are unaudited and unreviewed, and are based on information and data available to the Company as of the publication date of this presentation; they reflect the application, to the best of the Company’s understanding, of the accounting principles expected to apply to its financial statements, prior to the completion of the preparation of its financial statements for the said periods and/or the independent auditor’s audit thereof. The Company’s final and complete financial results (after the completion of the financial statements’ audit) shall be presented in its financial statements as published thereby in the dates set out by law; those results may vary from the forecasted results.

The materialization of the forward-looking information is subject to uncertainty; it may materialize or not materialize at all, or materialize in part or in whole, in a manner that may be different and even materially different from what is projected. This is due to factors that cannot be predicted and/or are not under the Company’s control, including as a result of changes in the Company’s area of activity, and the economic and competitive environment in which it operates; regulatory, technological and/or other developments that may impact the Company, its activity and results, including developments stemming from the coronavirus pandemic and its effects on the Company, its customers and suppliers, which may delay and/or impair the Company’s ability to implement its plans and forecasts; the application of accounting principles to the Company’s financial statements in a manner which is different (or even materially different) from that contemplated by the Company; and the materialization of all or some of the risk factors characterizing the Company’s activity as stated in its current and/or periodic reports. It is therefore hereby emphasized and clarified that the Company’s actual results, including those contemplated in the forward-looking information, may differ materially from those presented in this presentation.

The information included in the presentation and any other information that will be delivered during the presentation thereof (to the extent that it is presented) does not constitute the basis for making an investment decision, nor does it substitute a potential investor’s discretion. The purchase of the Company’s securities requires in-depth review of the offer documents and the information published by the Company; it also requires an analysis of the relevant legal, accounting, economic and tax aspects as applicable under the circumstances of each investor.

This presentation does not constitute an offer to purchase the Company’s securities or solicitation to receive such offer.

# About the Company

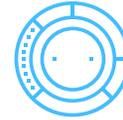

Massivit 3D was founded in 2013 by a team of experts in the Israeli 3D industry

The Company develops, manufactures and sells industrial printers designed to print large-scale 3D objects rapidly. The Company also engages in research, development and sale of specialized printing materials for use in its printers

The Company's groundbreaking technology is protected by 50 patents

The Company targets the automotive, marine, rail, furniture and advertising markets. Its printers are sold in 40 countries across the globe with accrued volume of sales of over USD 48 million

The Company's vision is migration of the manufacture of large objects from outdated traditional methods to digital production with rapid 3D printing, using industrial materials

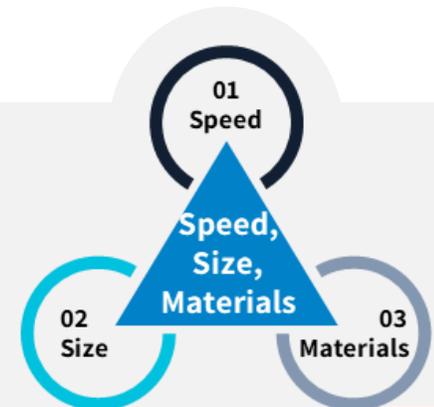

The Company raised USD 52 million (NIS 169 million) in an IPO on the Tel Aviv Stock Exchange in February 2021

## The Company's prominent investors include

**YASKAWA**

**MORE** Investment House

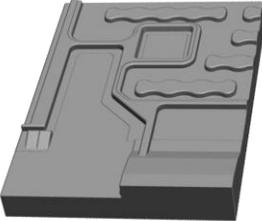

# Massivit's Product Lines – First Generation

## Printing materials

**Dimengel 20**  
Fire-retardant

**Dimengel 90**  
Cost-effective

**Dimengel 110**  
Translucent

**Dimenegl 300**  
Transparent

## Printers - Gel Dispensing Printing Technology

The business model is based on sale of printers and printing materials

# Massivit's Product Lines – Next Generation

## Printing materials

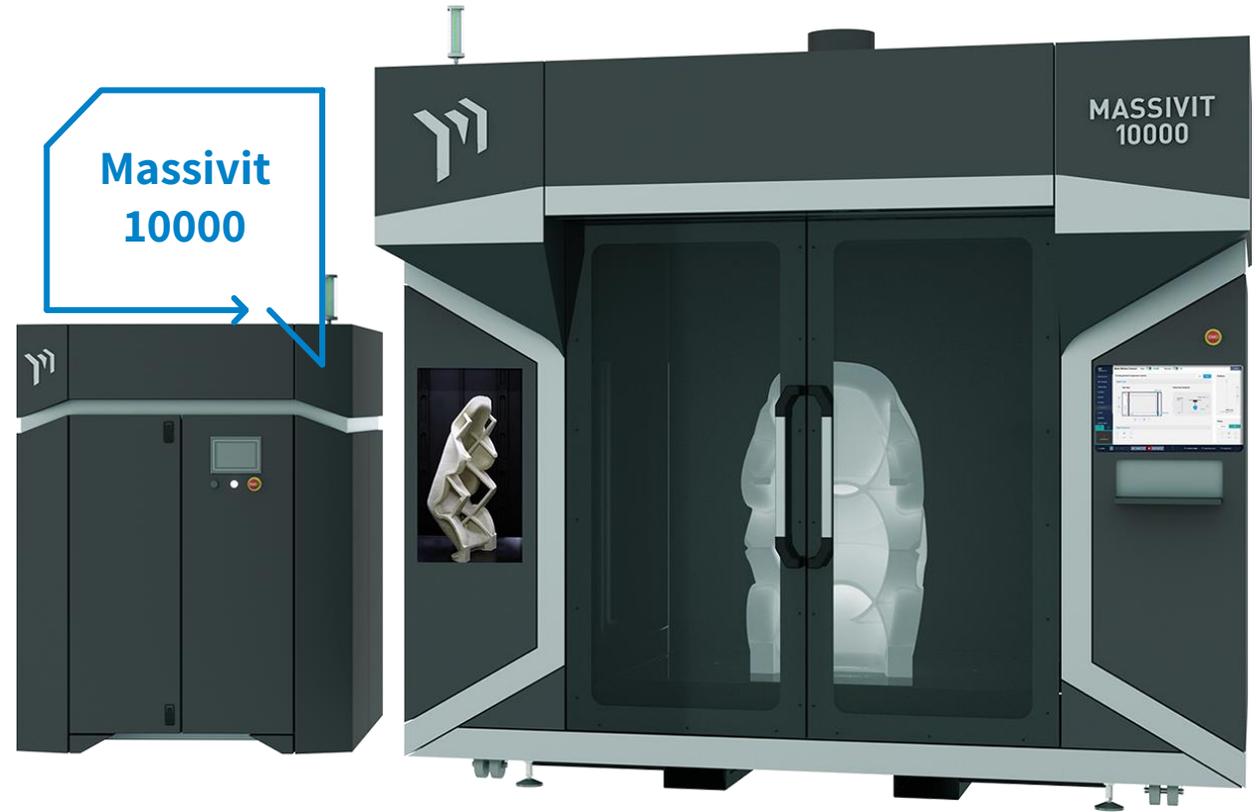

Dimengel  
Water-breakable

CIM 155 –  
High temperature

## Printers - Cast In Motion Technology

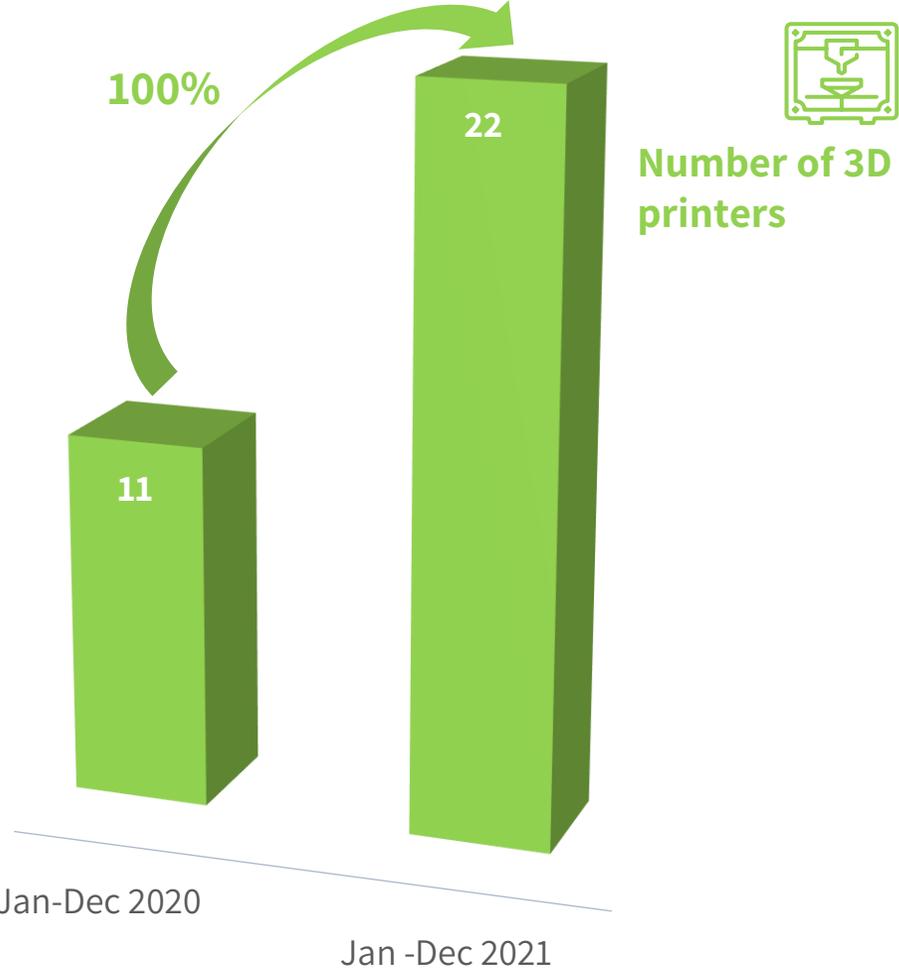

Massivit  
10000

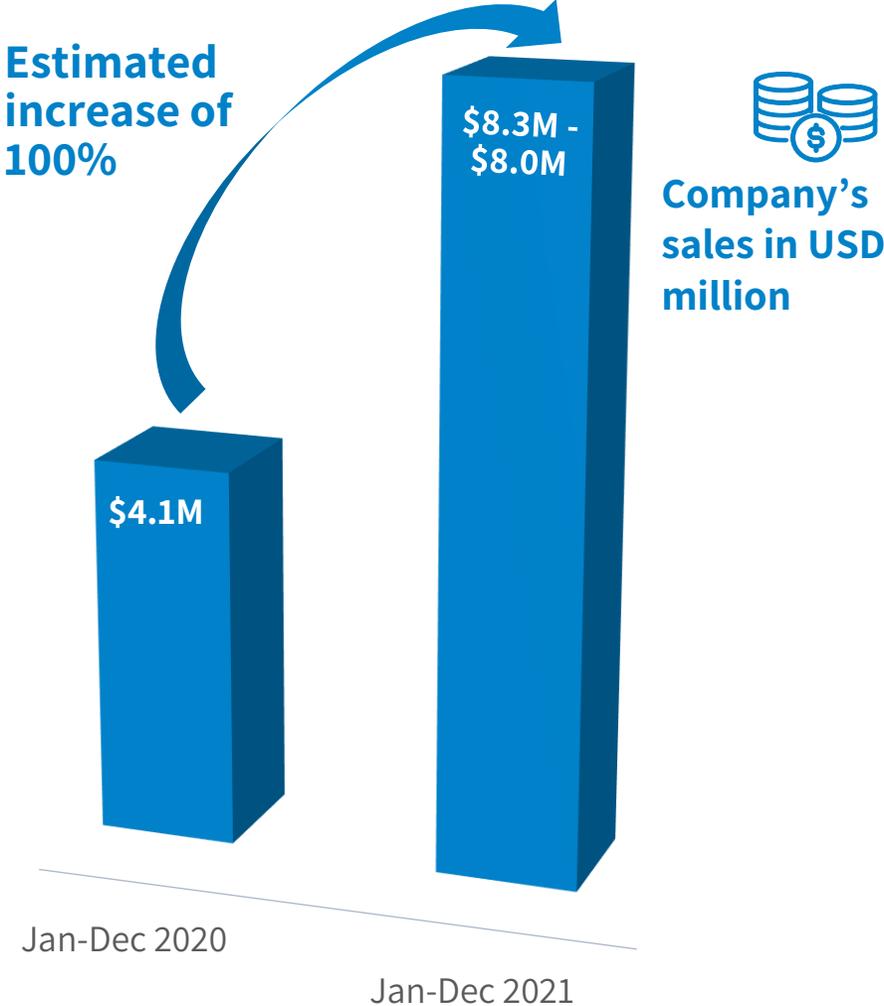

The business model is based on sale of printers and printing materials

# 2021 Sales Forecast

\*Preliminary data (unreviewed or unaudited), see slide 2 to the presentation

In 2021, the Company sold **22** printers compared with **11** printers in 2020 – an increase of **100%**

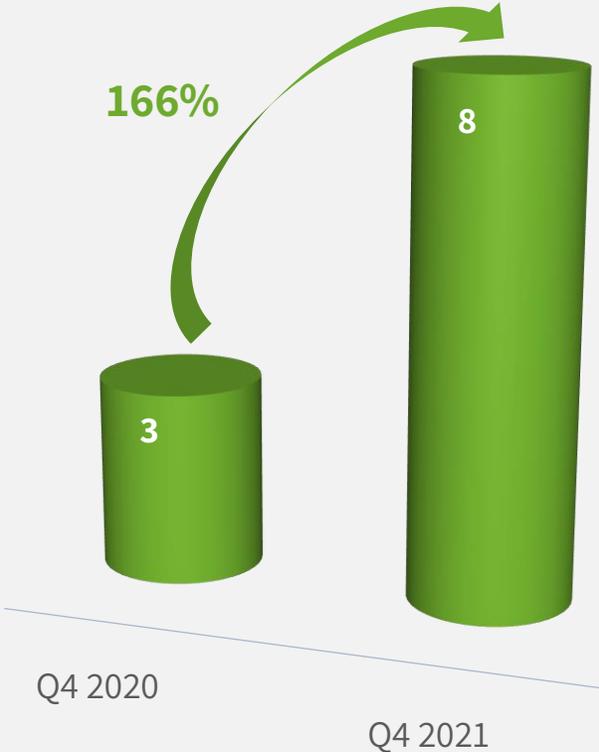

Total sales in 2021 are estimated at **USD 8.0-8.3 million**, compared with USD 4.1 million in 2020 – an **estimated increase of 100%\***

# Q4 2021 Sales Forecast

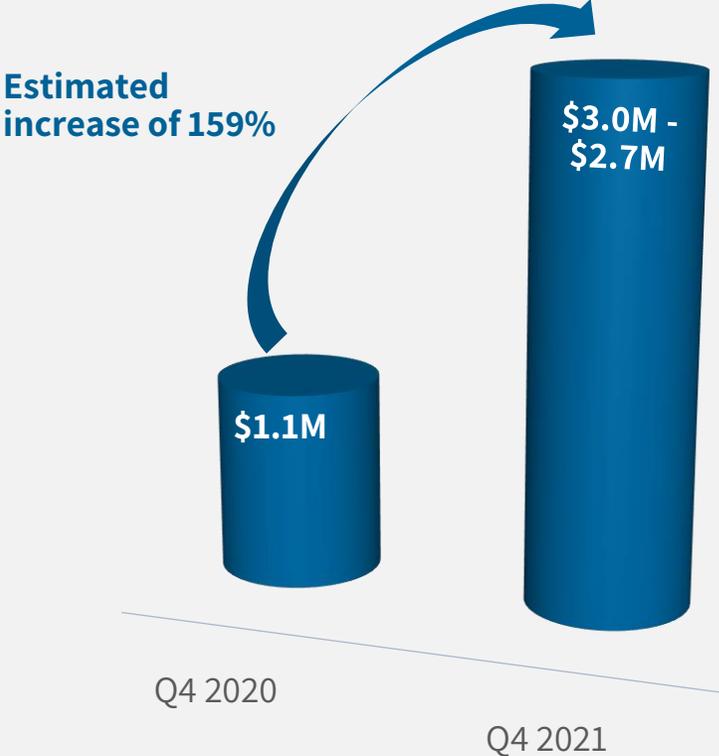

## Number of 3D printers

In Q4 2021, the Company sold **8** printers compared with **3** printers in Q4 2020 – an increase of **166%**

## Company's sales NIS million\*

Sales in Q4 2021 are estimated at **USD 2.7-3.0 million**, compared with **USD 1.1 million** in Q4 2020 – an estimated increase of **159%\***

\*Preliminary data (unreviewed or unaudited), see slide 2 to the presentation

# Massivit 10000 – official launch is expected to take place in March 2022 in the JEC exhibition in France

As part of the sale processes the Company prints samples for customers who show great interest in Massivit 1000's innovative technology

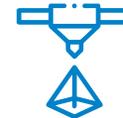

The end customer price of Massivit 10000 is expected to amount to USD 600-800 thousand

The Company is expected to start supplying the printers to customers in H2 2022

As of the end of 2021, the Company has **14 orders\*** for the Massivit 10000 printer

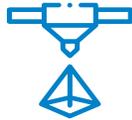

The Company continues the final development stage of Massivit 10000 - a 3D printer designed to produce parts made of composite materials for industrial companies\*\*, targeting a USD 25 billion market

# Massivit 10000 – official launch is expected to take place in March 2022 in the JEC exhibition in France

As of the end of 2021, the Company has **14 orders\*** for the Massivit 10000 printer

The Company continues the final development stage of Massivit 10000 – a 3D printer designed for the industry of producing parts made of composite materials \*\*, targeting a USD 25 billion market

As part of the sale processes the Company prints samples for customers who show great interest in Massivit 1000's innovative technology

The price of Massivit 10000 for the end customer is expected to amount to USD 600-800 thousand

The Company is expected to start supplying the printers to customers in H2 2022

## Massivit Enters the Aerospace & Defense Industry:

In Q4 2021 the Company signed a strategic collaboration agreement with Kanfit to install a Massivit 10000 printer in Kanfit's plants

Mr. Shachar Fine EVP, Kanfit (left)  
Mr. Erez Zimmerman CEO, Massivit (right)

Kanfit is an Israeli company that manufactures products made from composite materials (carbon fibers and fiberglass) for key players in the global and Israeli aerospace market, such as Israel Aerospace Industries, Elbit Systems, Rafael Defense Industries, Israel Air Force, Ministry of Defense, and others.

Under the agreement, the Company shall install its Massivit 10000 printer at Kanfit's production plants for the purpose of conducting customer beta testing. The printer was supplied to Kanfit in December 2021.

# Exhibitions, Conferences and Social Media – Q4 2021

As part of its marketing activities, the Company participated in four exhibitions across the world, each targeting a different industry

## Social media promotion

Joel Telling, a leading Youtuber in the 3D industry, also known as “The 3D Nerd”, held an interview with the Company’s CEO with more than 137,000 views

[https://www.youtube.com/watch?v=SSE2q\\_ejjKc](https://www.youtube.com/watch?v=SSE2q_ejjKc)

## formnext

An exhibition held in Germany, focusing on the **3D industry**, November 16-19

## CAMX

THE COMPOSITES AND ADVANCED MATERIALS EXPO

An exhibition held in the USA, focusing on **composite materials**, October 10-12

Massive 10000 won the prestigious ACE award in the “2021 Composites Excellence” competition of the AMCA under the innovation category

# Looking Ahead to 2022\*

Further recruitment of development and sales personnel

Adding new printing materials to the Company's product lines

Further promotion of the sales of the first products line – Massivit 1800 and 5000 printers – with an emphasis of the marine and automotive industries

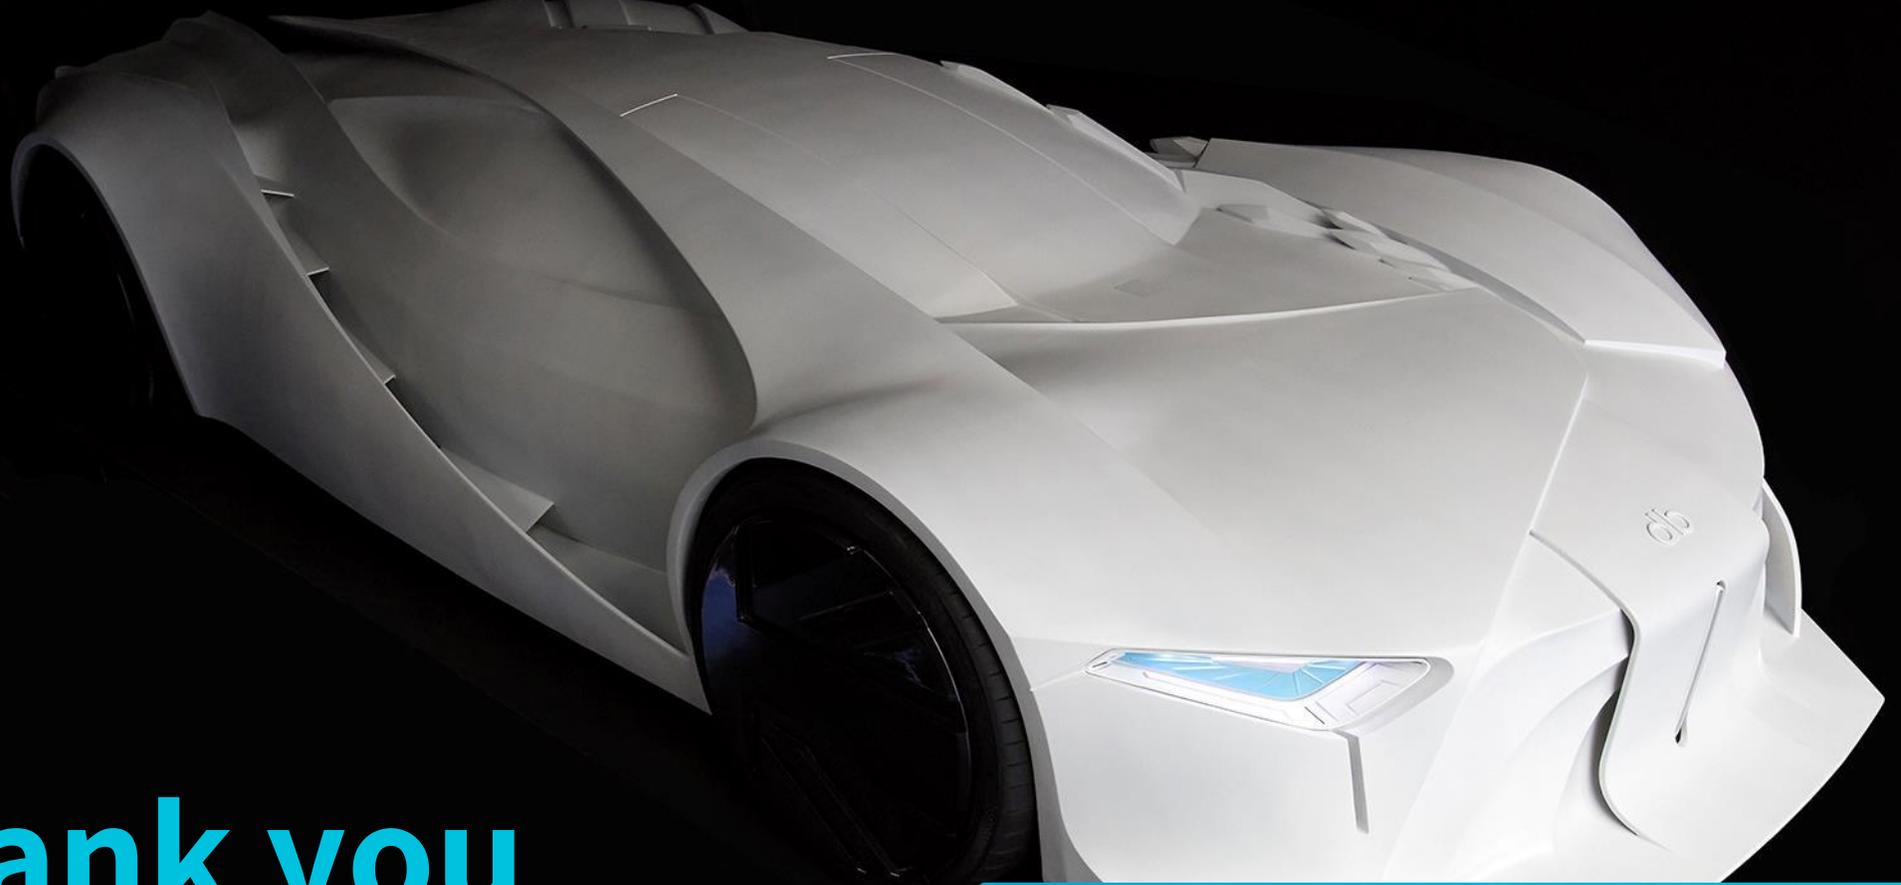

Supply of Massivit 10000 printers

Commencement of beta testing with additional customers that placed reservations for the Massivit 10000 (other than the Israeli customer)

Massivit 10000 launch in the most important global exhibition for composite materials – JEC Paris

**Thank you**
